Did You Ever

STOP TO THINK

That no farm is complete without the home orchard?

That there is big money in the orchard business?

Whether or not you have asked yourself these questions, they are nevertheless true.

We are prepared to help you put the realization of either or both of the above truths into practice.

We offer you the experience of nurserymen who have been actively engaged in the business for 25 years and a record of selling only trustworthy fruit trees.

Our main method of getting our hardy, healthy trees to you is through our representatives. They are trustworthy men who can render you real service—whether you buy a few trees or a quantity.

We will be pleased to put you in touch with the representative nearest you.

A firm, to be entitled to exhibit as such, must have been organized for a time not less than thirty days next preceding the closing of entries, and such firm must be organized as a bona fide firm for the purpose of producing or buying and selling the animals or articles they propose to exhibit in the name of such firm. A firm will be regarded as one exhibitor.

7. Incomplete entries will be returned for correction if there is time to do so, Exhibitors are urged to enter early, and to use great care in filling out entry blanks, being particular to give all the information requested on the blanks, in clear terms, easily understood. For this fee an exhibitor's admission ticket will be issued, good for the entire week, with the privilege of entering the grounds with an automobile, when the license number of the machine appears on the ticket.

13. Only one person will be admitted to the grounds on the ticket that entitles the exhibitor or firm to compete, a firm being regarded as one exhibitor, and in no case will such ticket be transferable. Learn the Truth About Fertilizer

Each crop has its individual food requirements. Every Royster fertilizer is a scientifically balanced food ration calculated to supply the needs of the crop for which it is intended.

Commercial fertilizer is not magic. It is no substitute for work, or for farming brains. It will not make a successful farmer out of a shiftless, ignorant failure. Fertilizer varies in quality like corn or tobacco or cotton, and some brands are worth more than others. Good fertilizers, like Royster's reliable old mixtures, are a godsend to good farmers who learn how to best use them to make money.

Nearly forty years experience enters into the making of the Royster mixtures, and hundreds of thousands of the country's best farmers pin their faith to this famous old brand.

We are proud of the Royster reputation for quality, and will preserve it in every way. *Write freely for advice about the use of fertilizer to Farm Service Department.*

The Holstein-Friesian Association of America, F. L. Houghton, Secretary, Brattleboro, Vermont, offers to pay twenty-five per cent additional to above premiums in open classification under the following conditions:

No animal can compete for a prize that has not been recorded in the Holstein-Friesian Herd Book of America, and transferred on the records of the Association to the exhibitor.

Certificates of registry and transfer must be examined before the prizes are awarded, that the judge may know that the exhibitors have complied with the requirements.

An unregistered animal, even though eligible for registration, or a registered animal not properly transferred, cannot compete.

All animals over six months old must have been tested for tuberculosis within six months by a duly accredited Federal or State veterinarian. The certificate showing freedom from this disease must be exhibited. Grounds and barns must be disinfected in accordance with Federal or State requirements.

The percentage offered is based only on the general classification, and not on the champion or grand championship classes.

A special blank for reporting awards will be furnished by this Association, and unless a detailed report is received from the Manager of the Fair within sixty days after the close of the Fair, the prize money will not be paid.

Rules Governing Promotion Clubs

1. Nomination fees are \$5 for each and every one of the Clubs, and this fee entitles you to show in any of the classes, singles or groups, outlined in the prize list.

2. All entries close June 15, 1923.

3. Pigs must be registered in the American Association Record fifteen (15) days before the date of the show, and the names and numbers of each pig shown must be turned in to the Secretary of the show on the day the pigs are shown.

4. Where more than the required nominations are secured for any of the Clubs an additional prize of \$5 for groups for each such nomination will be added to the printed prizes, so that every man who pays a nomination fee and shows four pigs will at least win \$5.

5. Spring pigs must be farrowed March 1, 1923, or after, and fall pigs farrowed September 1, 1922, or after.

6. The four pigs shown in the groups may be all males or all females or part of each sex; they may be from one litter or they may be from different litters; the main object being to get out to the show the four best pigs in your herd.

7. The Promotion Committee of the American Association reserves the right to withdraw this offer to coöperate with the breeders and reject further Clubs when the appropriation made by the Directors for this purpose is exhausted. First come, first accepted. We will accept the guarantee of two or more reliable breeders in a community that required nominations will be forthcoming for a Club in your locality, and the Club will be booked on the strength of their guarantee.

2. These offerings are made with the understanding that no unrecognized Shropshire organization is permitted to offer prizes at any Fair or exhibition named on this list. Also, that if quarantine regulations, or any other condition, prevails, which in any way interferes with prospective exhibitor or exhibitors reaching any of the shows mentioned in this list, moneys may either be withdrawn or pro rated.

3. Appropriations to all fairs and exhibitions are made with the understanding that the Shropshire classes shall receive awards equal to the maximum amount allowed other breeds of sheep at such fairs and exhibitions.

4. Entry fees shall not be charged by any Fair or Exposition on entries made for prizes offered by this Association.

5. Owners of winning animals must be members of the American Shropshire Registry Association before the date of such winning.

9. Champion prize competition is limited to animals shown in preceding classes.

10. Carload contests require all animals sired by registered Shropshire rams.

To be awarded the farm which shows by exhibits of products and labels the best display representing a live-at-home program.

CONDITIONS FOR CLASSES 1002, 1003, and 1004

For Class No. 1002, County Exhibit, a space 16x32 feet will be assigned.

For Class No. 1003, Live-at-Home Farm Exhibit, a space 16x16 feet will be assigned.

For Class No. 1004, Community Exhibit, a space 16x24 feet will be assigned.

In each of these classes, side walls any height may be built out ten feet from back wall. The six feet next to aisle, between spaces, must not exceed four feet in height.

Each exhibitor in classes 1002, 1003, and 1004 must supply the Superintendent of this department on or before 9 a. m. Tuesday of Fair Week with a neatly written list of the products and varieties of the different crops in his exhibit.

The exhibitors or duly qualified agents are required to make affidavit before 9 a. m. Tuesday of Fair Week and file with the Manager of the Fair that the products exhibited were grown during the current year, in accordance with the requirements given above.

No premiums shall be awarded in any of these classes when, in the opinion of the judges, the exhibits are not meritorious in variety, quality, artistic arrangement and educational value.

The following scale of points shall be used by the judges in placing awards on classes No. 1002, 1003 and 1004; Field Crops, 25 points; Garden Crops, 10 points; Home Industry, 10 points; Fruits, 10 points; Educational Value, 35 points; Artistic Arrangement, 10 points.

In making the awards according to this classification, special emphasis shall be given to the quality of the field and garden crops, fruits, and to the excellence and practical utility of the home industry exhibit.

The educational value of the exhibit shall be construed to mean practical lessons that may be drawn from it by farmers or others with reference to certain methods of handling, marketing, growing, and selecting seed of the different crops; for instance samples of corn might be exhibited showing the effects of a systematic, intelligent system of seed selection, upon the quality of the corn, as well as upon its yielding powers. Again, an exhibit that would show the effect of spraying apples as against unsprayed would have great educational value. The effect of growing leguminous crops upon crop yields might be shown concretely or graphically. This too, would bring out a most valuable lesson to those farmers who might study the exhibits. Many other exhibits of this nature might be devised which would have great value from an educational standpoint.

Each exhibit for classes No. 1002, 1003, and 1004 shall not contain more than five varieties of any one field or garden crop, except for decorative purposes. Only the best varieties for the different counties should be exhibited.

Home Industry includes canned goods, not to exceed 35 cans, no two alike; and not more than 15 cans of preserves, jells, and pickles, no two alike; fifty cans in all, also meat, dairy products, eggs, etc., but not fresh cooked articles, baking, or needle-work of any kind.

A neat cloth sign, not exceeding 10 feet in length should be placed above each exhibit under classes 1002, 1003, and 1004 giving simply the name of the county.

Plain neat labels or placards should be placed on every group in each exhibit.

In judging, consideration shall be given to standard commercial pack of products.

BOOK 45—SEED JUDGING AND IDENTIFICATION CONTEST

W. H. DARST and ROY H. THOMAS

Amount offered in this Book, \$40.00

A special feature of the 1923 State Fair will be the Seed Judging and Identification Contest. This contest will begin at 9 a. m. on Wednesday of Fair Week at the Fair Grounds.

The purpose of this contest is to encourage training in identifying crop varieties and to stimulate the study of quality in farm seeds.

This contest is between individuals and is open only to Short Course and other Agricultural students.

	1st	2d	3d	4th	5th
1005. Students making the highest grades in judging and identification of farm seed will receive the following prizes according to their standing.....	\$15	\$10	\$7	\$5	\$3

Work of contestants will consist of judging quality in seed of corn, wheat, oats, soybeans, cowpeas, clover and grass seed.

The corn judging contest will be arranged in two classes, one class consisting of varieties of prolific corn and the other varieties of single ear strains. The contest will consist of placing according to quality, ten-ear and single ear samples within these classes of corn.

Samples of small grains, legumes and grass seeds will be arranged in classes and judged as to quality. Each contestant should be familiar with the North Carolina score cards for corn, small grains, legumes and grasses. (See pages 95, 96, and 97.)

In addition, contestants will be asked to identify the commonly cultivated legumes and grasses used for feed and soil improvement within the State. Dried plant specimens and other seeds will be used in the identification work.

Separate contests in Seed Judging and Identification will be conducted for enrolled students of Vocational Agriculture and for agricultural Boys' and Girls' Clubs.

For Vocational Students' Seed Judging Contest, see Book No. 53, page 100.

For Boys' and Girls' Club Seed Judging Contest, see Book No. 56, page 103.

Prolificacy should be interpreted as the total amount of shelled corn per stalk. Trueness of ears to variety type should include size of the ears, color of grain and cob, and shape of ears.

Market and seed condition should apply to the maturity of the ears, their sappiness, chaffiness, adherence of chaff to tip cap, adherence of tip cap to cob, plumpness of tips of kernels, soundness and luster of kernels, and freedom from disease.

Character and uniformity of kernels should apply to size and shape of kernels, size and condition of germs, filling out of space on the cob, color and purity of kernels, uniformity of kernels throughout length of ears, and depth and width of kernels.

(For rules and regulations concerning the crops judging contests, see Book 45 page 87 and the score cards following class 1187)

The awards in this class will be based on the comparative average grades of the teams. The team making the highest average grade will win the first premium and the splendid trophy, known as the Crop Judging Trophy, donated by the State Fair Association for the promotion of the study of quality in farm seeds. The trophy becomes the property of the school whose team makes the highest grade until June 1, of the following year, when it must be returned to the Manager of the State Fair Association, Raleigh, N. C. However, if a school wins the trophy three times within five years, the trophy becomes the permanent property of that school.

The team making the second highest grade will win the second premium, and so on. The average grade of a team will be composed of the individual grades of its members. The individual grades, as explained above, will be based on work in both judging and identification.

CONTESTS IN LIVESTOCK JUDGING, SEED JUDGING AND PLANT IDENTIFICATION, DEMONSTRATION AND EXHIBITS

S. J. KIRBY, Assistant State Agent, State College Station, ... Raleigh,
Member in Charge.

The contests for Agricultural Club Members, held at the State Fair, form an important part of the program for the State Club Members' Annual Short Course held at the North Carolina State College of Agriculture and Engineering in connection with and during the week of the State Fair in Raleigh. This arrangement makes it possible for all agricultural club members attending the State Short Course to participate in the State Club Contests put on at the State Fair.

Eligibility

Club members to be eligible to attend the State Club Short Course and to enter the State Contests must be actively engaged in agricultural club work, and present a statement from their County Agent certifying that they are bona fide club members. However, any club member who has at any time matriculated as a student in the regular courses of an Agricultural College or any one who has won a first prize in any former State Club Contest will be ineligible to enter this year's contest.

Selecting Team Members

Local contests in the counties should be held in which to select club members to represent the county club organizations in the State Contests. Each county will be allowed to send two teams of three members each selected at large from the county and may have a team of three members each from each organized club in the county provided that the total number of representatives from a single county shall not exceed twelve members.

Accommodations

Club members who attend the State Short Course to participate in the contests at the State Fair will be quartered in tents equipped with cots on the College Campus under competent supervision during the week of the Fair without charge. Meals at the College Dining Hall will be furnished at a nominal cost.

Attendance Limited

Accommodations for only approximately 350 club members can be provided at the State Short Course and every local club organization in the State should have representation in this number. Therefore, it is important that each county Agent start early to train and select the representatives from his clubs to attend this course of instruction and to enter the State Contests. County Agents should notify the Assistant State Agent not later than the first day of October, as to exactly how many members may be expected from their respective counties.

Amount offered in this Book \$604.25

See rules 12 and 13, page 19.

Entries in this book close Saturday, October 6th.

As far as possible it is desirable that horticultural exhibits be brought in and set up by the growers. Where this is not possible, the Superintendents will be glad to receive and place on exhibit all suitable horticultural products sent in. All exhibits competing for premiums must be grown in the State.

In sending in fruit for exhibition, select only those specimens that are perfect in form and color and free from all insect and fungous blemishes. Do not knock or shake off the fruit from the tree, but pick each specimen by hand, taking care not to pull out the stem. Wrap each fruit separately in paper, and pack firmly in box or barrel, taking every care to avoid bruising. Label each variety, and put in papers to keep varieties separate. Do not use hay, fodder, excelsior, or any other dusty material in packing. Nail up firmly and address to "State Fair, Department of Horticulture, Raleigh, N. C." Each package should be plainly marked with the name and address of the exhibitor. Barrels of apples to compete in class or of commercial barrel pack must be faced and headed.

Plates for the variety exhibits of fruit will be furnished free by the Manager.

A perfect plate of fruit should contain five specimens, and no more, characteristic of the variety, with stems attached, of high color, of uniform, marketable size, free from cuts and bruises and all insect and fungous blemishes. If additional specimens are sent in by growers, the committee will select and place on exhibit the best possible plate to be made from all the specimens submitted.

Commercial box apples should be graded to uniform size, of high color, free from bruises and insect and fungous blemishes. They should be properly packed in standard bushel boxes of $10\frac{1}{2} \times 11\frac{1}{2} \times 18$ inches, inside measurement. The boxes should be of soft, light wood, smooth sawed inside, and dressed outside. The ends are three-quarters of an inch thick, the sides three-eighths of an inch, and the bottom one-quarter of an inch. Attractiveness of label will be considered.

Commercial barrel apples should be fairly uniform in size, of high color, and free from bruises and insect and other blemishes.

Special Attention Given Brands and Labels

The Superintendents will see that each entry is plainly marked and correctly named, and the entry tag attached to the same, so that the entry can be identified by the judges without difficulty.

A premium offered for a general collection of fruit will not be awarded to a mere pile of apples, or other fruit, but must be for a real collection, arranged on plates and all correctly labeled, and no fruit will be counted in a collection unless it is a fair specimen of the variety. No trashy fruit of any kind will be counted merely to make up a collection. A premium for the best collection of grapes, peaches, or any other fruit will not be awarded to a mere number, but to the quality of the exhibit mainly.

The Superintendents may withhold premiums in any case where the article is not worthy.

No article entered for competition in any one class will be permitted to compete for a premium in any other class, excepting sweepstakes.

No attention will be paid by the committee to any fruit or other exhibit that is not arranged in accordance with these rules.

All fruit must be shipped or brought in so as to arrive at the Fair Grounds not later than Monday noon of Fair Week.

The awards for fruits will be made on the afternoon of the second day of the Fair.

No exhibitor will be allowed to discuss exhibits with the judges, or to interfere in any way while the judges are at work.

A pile of fruit brought for sale merely will not be allowed to count in a general collection of fruit, as all fruits shown for premiums must be arranged on plates and remain on them until the close of the Fair.

In the nomenclature of fruits, the names adopted by the American Pomological Society will rule, and no variety will be accepted that has not been admitted to their catalogue, except in the case of seedings never before exhibited.

Feed ALL Your Hens

"ONE FUL-O-PEP DRY MASH SELF-FEEDER FOR EVERY TEN HENS."

Repeat that sentence over several times until you are sure you won't forget it—then see to it that you give plenty of hopper space to your hens. Just because a few of your hens lay well does not mean that *all* the hens have a good chance to lay. If the birds have to fight to get Ful-O-Pep Dry Mash they can't eat as much and therefore won't lay as well as if they have all the Ful-O-Pep Dry Mash they need *all* the time.

Feed *all* your hens *all* they want. By providing plenty of Ful-O-Pep Dry Mash self-feeders, the more timid hens will get Mash as well as the aggressive ones. The Ful-O-Pep Way calls for Ful-O-Pep Dry Mash before these laying hens all the time—that's the plan that gets results.

FUL-O-PEP DRY MASH LAYING GRADE

If you're not feeding The Ful-O-Pep Way, begin now. Don't gamble with the hens—play safe. Why take chances on inferior feeds? Why not use feeds that are tested and watched all through the manufacturing process and are known to be the best producing feeds on the market? High quality feeds mean low mortality as well as high egg production. Ful-O-Pep feeds that keep your hens laying all the time and keep birds in good condition are the feeds that pay. Feeds that don't do that are expensive at any price—you can't afford to feed such feeds even if you get them for nothing.

Ful-O-Pep feeds are the best investment the poultryman can make, because they pay big dividends. Ask any Ful-O-Pep user—ask any of the hundreds of the country's foremost poultry raisers—they will tell you that Ful-O-Pep feeds are unsurpassed.

MANUFACTURES AND MERCHANDISE

Wm. PERLSTEIN, Raleigh, ... Member in Charge

No premiums are offered for manufactures and merchandise but every inducement is provided for the display of such products. Space is obtainable in the Floral building. Here manufacturers and merchants may tastefully display their products to the best advantage for the inspection of the thousands of country and city people who visit the North Carolina State Fair. The advertising and sales value of such displays can hardly be overestimated.

Assignment of space will be made at the discretion of the management, keeping in mind the welfare of every exhibitor. Here, as in other departments, every effort will be made to render exhibitors the best service possible.

Space will not be granted for any exhibit which is likely to prove prejudicial to the best interest of the Fair in general and the right is reserved to refund entrance money and close any exhibit that fails to meet with the approval of the management.

Space in this Department is priced at 30c per square foot. Formal allotment of space will begin August 1st, but applications may be filed any time.

All exhibits must be completed for public inspection at 8 o'clock a. m., Tuesday, October 16th.

Exhibitors in this Department may purchase helper's tickets for the entire week, at \$1.00 each. Details will be found elsewhere under the head of "Admission."

AGRICULTURAL IMPLEMENTS AND MACHINERY

C. B. PARK, State College Station, Raleigh, ... Member in Charge

It is planned by the management of the North Carolina State Fair to have a display of agricultural implements and machinery that will be larger and more extensive than ever before shown at any fair in the State. The teaching of our agricultural authorities to follow diversified farming and to grow more livestock will cause more farmers to be interested in improved methods to help them in their new field of endeavor. Here the manufacturer and merchant may display their merchandise for the benefit of both themselves and their customers. The manufacturer realizes that this is his best opportunity to place the latest types of machinery designed for efficient service.

The large Machinery Shed is splendidly located near the gates, through which all visitors enter, and in line with one of the main thoroughfares of the grounds. This prominent location insures the exhibitor the opportunity for which he is looking. Open space is available for demonstration purposes.

No premiums are offered in this Department, but the facilities offered manufacturers for bringing their wares to the attention of the buying public cannot be equaled. It would be difficult to secure better advertising than at the State Fair.

Exhibit space in the Machinery Shed and the open space is priced very reasonably. Details may be had by addressing the Manager of the Fair.

Applications should be filed as early as possible.

All exhibits must be completed for public inspection at 8 o'clock a. m., Tuesday, October 16th.

Exhibitors in this Department may purchase helper's tickets for the entire week at \$1.00 each. Details will be found elsewhere under the head of "Admission."
